**Jeanna Cunneen**

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☐
- Unreasonable ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I find this settlement amount unfair. My data was breached and I had to make alot of changes due to it.

Less than the full amount of the \$125 settlement agreement is most undignified and just plain wrong! Don't continue to let the SHUTSHE AFFAIR hinder the proper functioning of a working class society continue to be corrupted. Award the full \$125 WITHOUT MANDATORY CREDIT MONITORING and give decent society 1/5 if the chance to heal!

Having your personal information out to the highest bidder on the internet can cause extreme hardship and expense for people. Large companies that are supposed to care for their customers should not get away with just letting millions of people's information get stolen. We get for \$5 for the trouble. What is 5 dollars going to do to help repair our credit and our lives?

To The Honorable Thomas W. Thrash Jr.

As a trustworthy and active consumer I will not accept a slap on the wrist for a company that makes several billion dollars a year selling consumers data without their consent - and that they can't buy their way out of if with a bait-and-switch settlement offer for a fraction of the original amount.

I sincerely hope you will act in the best interest of the consumers and send a strong message to these companies that our personal data is just that PERSONAL and they should be doing everything humanly possible to protect it!

Thank you for your attention to this case.

Why on earth would anyone accept credit monitoring by the very company that leaked my info from the get go. I have been forced to place credit freezes, pay for a reputable company monthly to monitor my credit and a lousy \$10 isn't gonna cut the cheese as I'm out way more money than this and so has millions of other Americans. Personal note to The Honorable Thomas W. Thrash Jr.

The personal data gathered should have been significantly more protected, especially by a company that has decades of very specific on data on me, including SSN, all addresses where I have ever resided, my entire credit history, etc.; everything someone would need to steal from me. The proposed settlement is in no way adequate to those of us who had our trust violated. The cash settlement doesn't begin to compensate for my time or expenses and the credit monitoring is something that I had to do anyway as a result of this data breach.

Personal note to The Honorable Thomas W. Thrash Jr.

I object to this settlement because the settlement amount should adequately reflect the number of people impacted. The explanation that the response to the settlement was "overwhelming" is not a sufficient response. Equifax is an enormous company that Americans cannot opt out of or avoid working with. After a breach so large, why would we accept credit monitoring by the company that failed to protect our data in the first place? It's disingenuous. Please consider the positions of the people affected by this breach.

Rachel Cunningham

1855 Lincoln Ave., Space 230, El Centro, CA. USA

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The settlement being offered is inadequate and unfair for the lack of security and the release of private information to unscrupulous persons. This has caused harm to many. Please consider this when making your final decision.

Social security numbers are personal and private. I've kept mine private all my 51 years

Now a company who's supposed to be doing everything possible in case of data breaches messes up and is basically getting away with a slap on the wrist or so they hope. Attorneys will make millions, yet it's the rest of us who will suffer. I am afraid to have credit auditors watch out for me. Please help us make them see. Thank you!!

We have placed our trust in companies like Equifax. Tim and time again these companies have allowed our information to be hacked. When the cases are settled the attorneys are the ones who end up benefiting. We can opt to have credit monitoring by other companies who have been hacked also. If our information is sold it ends up costing us much more than these companies ever pay for a settlement. I think it's time one of these companies was taken to court to be judged by ordinary people. I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐

I have objected to no class action settlements in the last five years.

I will not attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I object to this settlement, on the grounds its terms are:

Personal note to The Honorable Thomas W. Thrash Jr.

Our social security numbers were never meant to be public identification codes. The fact that they are that and do not have protections awarded to them is backwards and dilutes the purpose of a unique identifying code. The fact that at any time for the rest of my life (possibly 50+ years) I must constantly watch to ensure my identify has not been cloned, a credit card has not been stolen, or worse, a tax return has not been falsely claimed in my name is insane. The settlement offering of now \$5 means that my time for my data which was so easily given up by Equifax was only worth \$0.10 a year. I am positive that my social security and personally identifiable information is worth more than a dime.

When a multi-billion dollar corporation makes me do the work to defend my personal data after they lost I feel this is truly unfair. In 2014 my car was broken into and they took an E-Z Pass tag, did I get to say oops give me another one for free and sorry about your old one? No, I had to pay for the lost one AND I had to pay to get a new one. So, why do I have to chase down Equifax and make them give me compensation for losing data that most of the time I didn't personally give them?!

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

**Benjamin Koble**

2216 Bernays Dr York pa 17404

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

This hugely profitable company lost my personal data—the very thing upon which they make billions of dollars. And they want to make off by paying pennies on the dollar for the proposed settlement. Totally unacceptable!

Personal note to The Honorable Thomas W. Thrash Jr.

This doesn't even scratch the surface of making myself whole and the settlement obtained is nonsensical. The former CEO, Richard F. Smith, made off like a bandit with an approximately \$18.4 million bonus as he retired. The cash fund in the settlement is for \$32 million. The class consists of almost half the US populace at roughly 150 million people. The accused found guilty of gross negligence and damages has a bonus of over half the value of the cash fund for 150 million people. I don't want to change my name. I can't change my SSN. It's absurd to get < \$5 from the settlement, to change things like address, driver's license, card numbers, etc. I spent thousands; this is not acceptable. Experian and Equifax both suffered breaches that affected millions of people. 'Monitoring' is not an acceptable alternative to \$5 given their utter technical incompetence & greed

Personal note to The Honorable Thomas W. Thrash Jr.

Dear Judge Thrash;

The settlement is totally inadequate considering the seriousness of the breach of the most vitally important financial data a person possesses. A slap on the wrist would be insulting to those who have been and those yet to be harmed.

Thank you for the justice you will administer in this matter.

Sincerely,

This company makes billions each year on the information it collects. The settlement does little to punish the company for their knowingly illegal betrayal of our personal information and the money they made off of this illegal betrayal. It amounts to a slap on the wrist and does nothing to discourage them or another company from doing the same thing in the future for their own personal profit gain.

Equifax has failed to protect data of persons that are required to use their services for creditworthiness. Being offered a credit monitoring and protect service from this company, that has already failed the public, is an insult to the public. I urge you to reconsider what constitutes as a reasonable payment of the debt owed to the public for these violations.

Our personal information is very important to our lives and livley hood. When our information is mishandled, it can have some dramatic effects on people's lives. I feel companies should not be able to unlawfully use it. Or keep it in am inadequately secured way. Also when a penalty is stipulated the company's should do what they said they would and not try to switch payment quantities.

Personal note to The Honorable Thomas W. Thrash Jr.

Your honor, an insignificant amount of money - or, worse, services which most of us have already purchased from competing providers simply because Equifax has been found to be untrustworthy - is less a "settlement" than it is a declaration by the Court to consumers that their rights and damages are less important than protecting Equifax from the consequences of its actions.

If we consumers misbehave, the law is quick to hold us to account. Why should it not be so with Equifax?

*In re: Equifax Inc. Customer Data Security Breach Litigation*

Case No. 1:17-md-2800-TWT

Allan Melby

254 Old NW Hwy Roaring River NC 280669

I have checked the settlement website and have confirmed I am a class member.

I object to this settlement, on the grounds its terms are:

- Unfair ☒ Unduly burdensome ☐
- Inadequate ☒
- Unreasonable ☒

I have objected to no class action settlements in the last five years.

I am unable to attend the settlement hearing in person.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

The punishment needs to be enough to discourage companies from doing this or similar in the future. This should not just be a cost of doing business.

I have objected to no class action settlements in the last five years.

I do not expect to be represented by an attorney.

Personal note to The Honorable Thomas W. Thrash Jr.

I have had my personal information violated. I have been having credit inquiries on my report that I do not make. This is ridiculous.
